Z-DIVE

To whom it may concern,

The sample of breathing air was tested with the following results. A table issued by the European Standard Authority is printed below (EN 12021:2014) for your perusal. The levels reached by the air Compressor serial # 05527 05826 MEETS the required standard. The Oxygen content is 20.99%

<i>Air sample supplied Gelieferte Luftprobe Echantillon d'a��rer fourni Campione d'aria fornita</i>	18	nil	nil	nil
